

We have blasting machines that work with metal sheets and profiles. It's possible to purchase only a part of the equipment or the complete line, which includes conveyor, blowing, drying, blasting, cleaning (sweeping and blowing), painting and drying of the paint with gas or electric oven. It also has a treatment of the volatiles, eventually generated in the process.

We also produce customized equipment to meet the specific need of each customer.

Features

- High energy efficiency.
- Best cost/benefit of the market.
- Meets small demands to large production volumes.

Specifications

Useful dimensions of passage (lxh 305 mm)	Speed in m/min	Number of blast wheel	Blast wheel power
1.500 mm	1,6	4	15 HP (11Kw)
2.000 mm	1,2	4	15 HP (11Kw)
2.500 mm	1,3	6	15 HP (11Kw)
3.000 mm	1,1	6	15 HP (11Kw)
3.000 mm	1,5	6	20 HP (15Kw)
3.000 mm	2,2	6	30 HP (22Kw)
3.500 mm	3	6	40 HP (30Kw)
4.500 mm	6	8	75 HP (56Kw)
